

April 1st 2017 Regular Club Meeting Notes

Attendance:

Joe Kapraun Joe Blosser Dan Logan Craig Harrison

Kermit Ruble Sam Samuelson Glen Moorhead

Dan Moorhead Gary Radabaugh Roy Grimm

Meeting called to order by Joe Kapraun.

Old Business

There was none

New Business

- Todd Wilkinson brought back the mower that he and his students worked on. They did a great job on it. Many, many thanks to Todd, Bob Pitts , and Todd's students!
- Sam and Kermit made a trip to pick up club Fuel, which cost \$300.00. Thanks guys for your time and gas in getting this for the club.

Donated RC Equipment

- Received a call from Larry Smith about some planes and other RC equipment that he picked up. Larry was called by an individual that had some RC planes and equipment to get rid of, so Larry went and made two trips to pick up the items which are currently stored in our trailer. Larry is donating the items to the club except for the engine which is on the Cub which he would like the option of having since he used his gas and time to go pick up the items. We will decide as a club what we are going to do with these planes and equipment during the May meeting so please do not disturb the items. Thanks for the donation Larry.

Quad-Copter Racing Area

- Joe Kapraun received a call from Dave Mercer from St Mary's club about possibly creating an area for quad-copter racing. Dave has all the hoops and obstacles for the racing course. We would put this course back in the field behind the trailer since we no longer use this area. It would be out of the way. Joe Kapraun and the officers will further discuss this possibility with the club during the May meeting. Dave Mercer has agreed to attend. During this meeting we will discuss the safety, etc of possibly having this course. If all works out, this could be a great addition to our field and attract other types of flyers.

Spring Fly-In

- Joe Kapraun as created an advertisement to run in the bulletin board beginning the first Wednesday in May and will run for the month of May. The ad will advertise our club's spring event.
- We are getting close to our annual spring event. All club members are encouraged to attend, fly and help out please. During the May meeting we will be discussing the event further and hashing out the details.
- During the meeting, Dan Moorhead called Dave Hefner and asked him what he wanted the club to do with the DX 6i radio he left behind. Dave has donated it to the club. Sam Samuelson mentioned that we should use it as a trainer radio for Buddy-Boxing since we wouldn't need to use a cord with it. The radio should bind to other newer radios. All were in favor of this and Sam is going to get an appropriate receiver for it.

Multi-Club Event

- We decided on a date for this event and it will be September 23rd. More information about this will be available as we get closer to the event.

Club Fly In

- Club Dues are due by March 31st every year. There is a \$20.00 late fee if dues are paid late. If you have not gotten your dues paid, please do so.

Maintenance

- Dan Moorhead is going to check into getting gravel from a different vendor that is cheaper and also only get enough gravel to cover and fill in the area up by the gate where the water is routing it out. This way it won't cost the club a lot of money.
- Dan Moorhead mentioned that our gate needs painted very soon with a rustoleum type paint to prevent further rusting. The gate also needs to be greased. Sam has a grease gun for this. Joe Kapraun will buy the paint and brushes needed for the task.

Thanks Dan for all your hard work!

The meeting came to an end.
